

MARCIN FABISIAK

FrontEndDeveloper

ABOUT ME

Engineer with solid knowledge of HTML, CSS, JavaScript, and React. Mastering new technologies gives me a lot of satisfaction. I am focused on improving my skills in the field of front-end technologies. I want to create scalable and well-documented dry code. What I like on the frontend is that you can see the changes that I made to the code right away. Moreover, it is important to me that the user can conveniently use and interact with the website.

- ❖ Self-starting
- ❖ Innovative
- ❖ Creative
- ❖ Adaptable
- ❖ Detailed
- ❖ Kindness and the ability to work in a team
- ❖ Willingness to learn and a positive attitude to work

IT WORK EXPERIENCE

Links to github repositories:

1. [project1PortfolioReact](#)

This is my first react project. I use hooks like: useState, useEffect, useRef and some custom hooks. All styling is in SCSS.

2. [project2MultiPageQuizReact](#)

Second project is also in react. It is much more advance because it uses useContext to manage state and router to move within pages.

3. [project3PortfolioReactTypescript](#)

Last project is in Typescript. It uses such features like modals. I use here redux for managing state.

WORK EXPERIENCE

ASO, Service Manager

05.2016–now

Malchem Sp. z o.o. Production Manager

05.2014–04.2016

Malchem Sp. z o.o. Deputy Production Manager

07.2013–05.2014

Bruggen Polska Sp. z o.o. Director's Assistant

07–10.2012
